Ringmer Parish Council Newsletter – March 2024

Fingerpost Field Play Park

A working group has been set up to consider the Fingerpost Field play park renewal quotes and make recommendations to the Full Council at the 12th March 2024 meeting.

Improving the Natural Environment in Ringmer

The Almond Field access point is now gated and access to residents will soon be available. Our plan to create a pond and wetland habitat in the field has been delayed due to the high cost of the planning application process as the field is within the National Park boundary. As the weather improves planting with native wildflower species will continue and it will soon be time for planting in our gardens. When selecting those species to grow, please choose those that are ideal for pollinators. These can be easily identified by the 'bee pollinator' labels. Pollinator numbers are in serious decline in the UK and by choosing pollinator friendly plants for our gardens we can all help.

Skatepark Update

Preliminary works have begun on the site to allow access for the skatepark to be built. Once the final licence has been received from ESCC we will be ready to start the installation.

Swimming Pool Update

The anticipated opening of the pool is set for Spring 2024.

Village Gateway Signs

Work is currently being undertaken to identify and measure the specific sites for the signs at the village entry points.
