

**Cllr Lucy Agace's Report for 7<sup>th</sup> May 2024 Meeting**

Following on from the first Thakeham stakeholders web meeting I also contacted ESCC with regards to the yellow lines recently agreed to be extended as the current agreed lines don't reach Clarks Croft and need to according to local residents.

I also contacted Dan Witcher about the proposed Thakeham TTPO of 50 meters on Bishops Lane asking him to reconsider the alternative vehicle access route via the Lewes Road, as yet I have not received a reply. There has been no further discussions on the CEMP with the officers as the consultation period for this is still running.
