

Report for Ringmer PC June 2025
Councillor Johnny Denis

My principle relevant activity is getting to the opening of the Pool. I have already had a swim along with a number of others. In their trial day on the 2nd. Principally to identify any major issues. It was a real pleasure to be there with other users who were very happy for it to be back in action.

There have been some issues with contacting the PC though as they had an incorrect email address – I have corrected the typo for them so hope you'll be better engaged henceforth.

The official launch is 14th June at 10am. Please come!

The timetable is not finalised as you might expect but some core elements will be in place shortly.

As you will know I was keen for some of the people involved originally to be part of the opening. I have met with and talked to a number of people and seen much of the original material, posters, notices, minutes, and tons of photos. What I thought would be a lasting record would be to have a display – The Library has offered to host – in conjunction with the re-opening. I am liaising with some of the people involved but this is a very early days idea.

On a related note – I wonder what scope there would be for thinking about a village heritage location – there is such a lot of local knowledge – wouldn't it be great to have a place to see it!!

There are various roadworks afoot - notably both on the Broyle and on the A26 – for redressing.

I may not be able to get to next week's meeting as this clashes with other Parish Councils. I will liaise with my fellow councillors and let you know.

Warm regards,
Johnny

Cllr. Jonathan (Johnny) Denis FRSPH
